

Christian Roth

"I would find the solution to a specific case, understanding the client and finding the research."

About

Researcher, interaction researcher. I want to learn sometimes but sometimes I feel like it super hard to memorize all the things, also I would like to be really good at making games. I have a feeling i'm starting to low. I want to be creative and artistic but being limited in short comings

Demographics

Age: 29

Occupation: Docent at HKU

Education: Design Research

Likes

- Good structure in websites
- Passion for the field

Dislikes

- Revealing pictures, you should not share illegal documents, having home work from others etc.
- Comic Sans

Tips for a good design & portfolio

- Passion for good Design that you really want to create interesting and interactive artifacts, you don't need to be the best artists but if you have a passion for designing you can learn a lot and do the necessary research.

Bas de Koning

"I want to create something unique"

Likes

- Good structure in websites
- Creative assets

Dislikes

- Colours not matching
- Pop-ups
- Dropdown menu's not working

Tips for a good design & portfolio

- If the person gives off a creative vibe, just a little bit different than the rest, something that is unique to that person
- You only wanna show your best 5 in your portfolio, no bullsh.
- Good structure, I don't wanna click 10 times to find the thing i'm looking for
